Architectural Services

Est. 2002

The Company

LifeStyle Architectural Services was established in 2002 with the two Directors, Dayle Beuth & Bert de Graaf, combining their industry experience and design skills to provide an architectural design service. The Directors have over 50 years' experience between them. They have worked in major housing companies and architectural offices, completing residential, educational, medical and commercial projects. Both Directors including senior Designer Scott Allen are Licensed Building Practitioners (LBP).

At LifeStyle Architectural Services Ltd we pride ourselves on our personalised service and commitment to deliver a quality product at a competitive price. We have a very strong presence in the Early Childhood Education sector and a reputation that has been built over 23 years with hundreds of great outcomes for our client throughout New Zealand. Our architectural services range from design and resource consent documentation and project management of the resource consent process as well as a full building consent documentation service. So we cover all bases when it comes to your next project. We can also assist with builder selection, site observation and leasing of your investment depending on your situation and your experience in the sector. We are proud of the work we have done so far over the past 23 years within the sector and we look forward to continuing the great outcomes.

Capability Statement

At LifeStyle Architectural Services Ltd we pride ourselves on our personalised service and commitment to deliver a quality product at a competitive price.

Our main objective is to give our clients a professional and efficient service, incorporating their ideas into the design. We offer a full design service through to completion of building consent plans and council lodgment.

Testimonials

"We engaged the team at LAS to take us through the concept, design, resource consent and building consent phases of our purpose built modern childcare centre for 60 children."

"Throughout our dealings with them we found Lifestyle Architectural Services to be very professional, easy to deal with, and very knowledgeable and informative on wider childcare regulations and specific building design issues that we greatly appreciated. On top of this they coordinated developments very well with our other engineers and planners engaged on the project."

"We have already recommended Lifestyle to other childcare centre owners and professionals in the sector and we have no hesitation in recommending them to anyone looking for sound advice, knowledge and practical expertise in childcare building projects."

"The team at Lifestyle Architectural Services have completed two projects for School of Fish. The first being a significant redevelopment of a 1907 villa previously used as a rest home, this was a challenging project and the team did do an excellent job redeveloping spaces suitable for a modern childcare while keeping the historic character and feel of the building."
